

Workflow B - Start Here

Operations and Analytics: what is in this folder and what you must deliver

Client	Generation Bridge Foundation
Document reference	MOM-2026-WSB-00
Issued	Sunday 26 July 2026
Classification	Workflow B
Version	3.1 July-September 2026

You are on Workflow B (Operations and Analytics). You alone hold the operational datasets and the data dictionary. You also have full access to the shared client data room (1_Client_Data_Room/) and the Programme Guideline - read those like any consultant would. Your job is to clean, analyse, and translate findings so Workflow A can decide. Do not share the raw workbook with A. Answer their Analysis Requests with Findings Memos in plain language.

1. State the placement definition you used and why.
2. Document every cleaning decision in the Assumption Log.
3. Findings Memos use plain language; charts are curated, not a dump of pivots.

4. Every Findings Memo PDF is saved in A_B_Exchange/ and logged on the Request Log.
5. Do not claim causation from correlation on attendance or mentoring.
6. Workflow A has completed the online tick on Section A of the Cross-Workflow Handoff Checklist (typed name + date - no wet signature).
