

Facilitator Guide

How to run the eight-week Momentum engagement

Client	Generation Bridge Foundation
Document reference	Facilitator pack
Classification	FACILITATOR ONLY - do not distribute
Version	3.1 July-September 2026

Before you start

Distribute only the Participants/ folder. Never share Facilitators/ or Answer_Key/. Confirm each team has five or six members and assign one Buddy per team. Operational datasets live only in Workflow B's folder - do not hand A the Excel. Programme window: 26 July to 20 September 2026.

Logistics to tell teams at kickoff

- Issue Participants/ as a Drive share or ZIP - do not send teams to a public GitHub download.
- Team workspace: Google Drive / Google Workspace (or Microsoft 365 if assigned). Weekly submissions via the programme Google Form (Buddy shares URL).
- File naming: TeamShortName_Owner_DeliverableCode_Version.ext
- Official A-B exchange: create A_B_Exchange/ in the team Drive; file Data Estate Brief, Demand Brief, Analysis Plan, R-xx and FM-xx PDFs; update the Request Log. Chat is not the assessment record.
- Handoff gate: 4_Shared_Toolkit/Templates/Cross_Workflow_Handoff_Checklist.docx. Online ticks only (typed name + date) - no wet signature. Full steps: Guideline Section 8. Formal checkpoint W6-02 (Wed 2 Sep, 12:00 ICT).
- Week 3 Buddy+5 ritual: B presents Estate Brief -> A presents Demand -> B owns Analysis Plan (catalog not raw data; demand not columns).

What this case is testing (staff only)

Do not state these lenses to participants.

- Efficiency versus ethics: growth/targets/placement metrics against dignity, quality, and who gets left behind. Teams should discover and sit with the tension.
- Empathy versus outside-in: whether recommendations are grounded in beneficiary voices or designed for people whose context the team has not taken seriously.
- Active querying: B briefs the data estate (catalog only); A states demand; B owns the analysis plan and translates Findings. Penalise raw-file sharing or A prescribing joins from a schema dump.

Kickoff (Day 1) - what to say

Set the tone in the first ten minutes:

- You are consultants, not students. The Board is paying for judgement.
- There is no single right answer. We assess your reasoning and evidence.
- Everything you need is in the pack. Do not go looking outside it.
- Two workflows hold incomplete information. B briefs what data exists; A states what they need; B plans and answers. You must talk to each other.
- We will not tell you which sources to trust. Interrogate definitions, audiences and contradictions - then record your ratings in the credibility matrix.

Week-by-week facilitation

Week	Watch for	Nudge if...
------	-----------	-------------

1	Rushing past the data room; A asking for 'the data file'; roles unassigned	they skip Charter / Request Log setup
2	Treating every source as equal; B not drafting Data Estate Brief	they want you to say which documents are 'safe' or to share the Excel
3	No Estate/Demand/Plan trail; B dumping dictionary; A shopping for columns	Request Log milestones empty by Wednesday
4	Options that are not genuinely distinct; numbers without Request IDs	all three options are really the same idea
5	Recommendations that ignore Findings or validation	nothing changed after FM-01 or the transcripts
6	Weak handoff; unfinished final report draft	Handoff Checklist PDF missing / Sections A-C incomplete, or A/B still arguing about the raw file
7	Data-dump slides; burying bad news; no named cost of the preferred path	Dong Nai or the formal rate is missing; trade-off reflection is empty
8	Shallow reflection; blame in peer review	the debrief avoids the costs of their recommendation

Escalation triggers

- Team conflict unresolved for more than 48 hours.
- Any safeguarding or ethical red flag in how a team behaves.
- A Buddy giving answers, the data file, or named 'efficiency vs ethics' framing.
