1. Score weights on Presentation Day

The 100-point engagement rubric still applies to written work. On Presentation Day, the live pitch and Q&A are scored with this panel split:

Panel	Weight	Focus
Buddy	35%	Process, teamwork, citation discipline, request/findings exchange
Core Team (Impact Case / MMT)	35%	Substance of recommendation, evidence quality, feasibility
Guest Board (invited)	30%	Clarity of ask, persuasiveness, composure under challenge

Final written report quality is primarily owned by Core Team using the Assessment Rubric and Answer_Key. Buddy scores inform process marks; guests do not re-mark the full 100-point written rubric unless Core Team asks them to.

2. Who judges the final report?

- Primary: Core Team Impact Case using 03_Assessment_Rubric and Answer_Key.
- Buddy: process and teamwork evidence (Request Log, A_B_Exchange PDFs, Handoff Checklist online ticks, file naming).
- Guest Board: live pitch only, unless Core Team shares a one-page score sheet.

3. Briefing guest Board members

Yes - Core Team briefs guests before the session. Guests should not rely on teams to teach the whole case in the first two minutes.

1. Send a one-page case brief (engagement mandate, workflows A/B, fictional disclaimer) 48 hours ahead. Do not give guests a finished problem statement - teams frame that.
2. 15-minute live brief before pitches: what GBF is (fictional), what a strong ask looks like, red lines (raw data sharing, outside research).
3. Optional role cards: guests may play ED / Development / Donor / Board hawk - or sit as a neutral Board. Tell teams which format applies that day.

4. Format of the final presentation

Default format (recommended):

- Teams pitch to a simulated GBF Board (10-12 minutes + 8-10 minutes Q&A).
- Core Team and Buddies sit on the panel; invited guests join as Board members.
- Optional light role-play: assign 1-2 guests (or Core Team) to named stances (e.g. growth-oriented Board member vs quality-first ED). Do not require teams to invent the Board characters themselves.
- Teams open with their one-sentence recommendation; they do not re-read the entire data room as 'context'.

Announce the chosen format at Week 6 Buddy check-in so teams can rehearse.

5. Run-of-show (example)

Time	Activity
08:30	Guest brief (closed)
09:00	Team 1 pitch + Q&A
09:25	Team 2 ...
After last team	Panel scores submitted; short private calibration
Closing	Thank teams; remind Week 8 peer eval and reflection
