

Conditional Grant Agreement

VPBank Foundation and Generation Bridge Foundation (excerpt)

Client	Generation Bridge Foundation
Document reference	D-03
Issued	Draft, dated 26 September 2025
Classification	Client document D-03
Version	3.1 July-September 2026

This excerpt reproduces the key commercial terms of the conditional renewal offered by the VPBank Foundation. Legal boilerplate has been omitted.

Grantor	VPBank Foundation
Grantee	Generation Bridge Foundation
Grant value	VND 8,000,000,000 (eight billion dong)
Term	1 January 2026 to 31 December 2028 (three years)
Disbursement	Annual tranches, released on achievement of conditions

Clause 3 - Conditions of disbursement

Each annual tranche is conditional on the Grantee demonstrating, to the reasonable satisfaction of the Grantor, that:

1. The job placement rate is at least 65 per cent, measured as the proportion of programme completers in paid employment of fifteen hours per week or more, ninety days after completion;
2. The Grantee is on a credible trajectory to serve a cumulative total of 4,000 young people by 31 December 2028; and
3. The Grantee maintains a monitoring and evaluation framework acceptable to the Grantor, with quarterly reporting.

Clause 4 - Measurement

Placement for the purpose of Clause 3 shall be assessed ninety days after programme completion. The Grantor will accept flexible and platform-based employment where it is stable and provides at least fifteen hours of work per week, but requests that formal, contracted employment be reported separately. Management may track earlier leading indicators for internal use; such indicators do not replace the ninety-day measure for disbursement decisions.

Clause 6 - Use of funds

Funds are provided for the expansion of the Grantee's employment programmes, including the establishment of new delivery capacity. The Grantor supports, but does not require, expansion into new provinces, provided that quality standards are maintained.

Note appended by the GBF Development team: 'This is the largest single commitment in our history. We should accept.'
