

Programme Guideline

Handbook, weekly deliverables, roles, submission rules and ground rules in one place

Client	Generation Bridge Foundation
Document reference	MOM-2026-GL-01
Issued	Sunday 26 July 2026
Classification	Participant material
Version	3.1 July-September 2026

1. Welcome to the engagement

Your team has been retained as external strategy consultants by the Board of Generation Bridge Foundation (GBF), a Vietnamese non-profit working on youth unemployment. The engagement runs from Sunday 26 July to Sunday 20 September 2026 (eight working weeks, Monday to Friday). You will diagnose a genuine strategic problem, test your thinking against incomplete evidence, and present a recommendation to the Board.

This is a simulated but realistic engagement. There is no single correct answer. You will be assessed on the quality of your thinking, the honesty of your evidence, the discipline of your teamwork, and the clarity of your communication.

Generation Bridge Foundation, VPBank Foundation (as portrayed here), named staff, beneficiaries and employers are fictional constructs created for the Momentum Impact Case. They do not represent real organisations or people. Do not import outside data, news or personal knowledge into deliverables or inferences.

2. The client at a glance

Item	Detail
Organisation	Generation Bridge Foundation (Cau Noi The He) - fictional case client
Founded	2014, Ho Chi Minh City
Mission	Connect 16-24 year-olds who are not in education, employment or training (NEET) to dignified work
2025 budget	VND 18.2 billion
Young people served in 2025	2,847
Current waitlist (Jan 2026)	approximately 2,400
Staff	67 full-time, 12 part-time, ~340 active volunteers
Delivery hubs	Ho Chi Minh City (2), Binh Duong (1), Dong Nai (1), Long An (pilot)

3. The question the Board has asked you

"What should GBF's strategy be for 2026 to 2028, and how should we allocate our limited resources to maximise dignified youth employment outcomes?"

- Engagement letter from the GBF Board, 15 January 2026

The Board is divided. Read the client data room carefully: senior staff, the largest donor and individual board members do not agree with one another. Some of what you are told will not survive contact with the operational record held by Workflow B.

4. How your team is organised: two workflows

Every team of five or six splits into two consulting workflows. The split is deliberate. Each workflow holds incomplete information. You must talk to each other to converge. Read both engagement briefs.

Workflow	Owns	Folder
----------	------	--------

A - Impact Strategy	Problem framing, stakeholder synthesis, the questions worth asking, strategic options, and the Board narrative	2_Workflow_A_Impact_Strategy
B - Operations & Analytics	The operational datasets, data dictionary, cleaning, analysis, and plain-language translation of findings	3_Workflow_B_Operations_and_Analytics

Suggested roles (assign in Week 1)

Role	Count	Owns
Engagement Lead	1	Timeline, board narrative, final integration, Request Log health
Workflow A Lead	1	Issue tree, options, trade-off reflection, Analysis Requests
Research Lead	1	Interview synthesis, credibility matrix, validation
Workflow B Lead	1	Data dictionary, cleaning, Findings Memos, dashboard
Operations Analyst	1	Funding scenarios, cost analysis
Project & Quality Lead	1	Minutes, version control, handoff checklist, file naming

In a team of five, combine Research Lead with Workflow A Lead. Full ways of working (decision rules, free-riding prevention) are also in [4_Shared_Toolkit/Team_Roles_and_Ways_of_Working.pdf](#).

The analysis request protocol

Workflow A does not receive the operational datasets and must not ask facilitators for the file. When A needs numbers, A files an Analysis Request. Workflow B answers with a Findings Memo in plain language, plus any charts B chooses to share. B must not hand over the raw workbook.

Before final options, the team must complete at least three Analysis Requests with Findings Memos returned. Every quantitative claim in A's deliverables must cite a Request ID or Findings Memo. The Cross-Workflow Handoff Checklist is the gate before submission (online tick confirmation - no wet signature required).

5. What you will produce - by week

Programme opens Sunday 26 July 2026 and closes Sunday 20 September 2026. Working weeks run Monday to Friday. Weekly submissions are due Friday 17:00 ICT unless a Board or handoff time is stated. Day-by-day detail lives only in [GBF_Consulting_Toolkit.xlsx](#) (Master Timeline).

Week	Dates (2026)	Submit by end of week
1	27-31 July	Kickoff; roles confirmed; Project Charter & RACI; Request Log set up; start data-room reading
2	3-7 August	A1 issue tree; A1b stakeholder map; information credibility matrix
3	10-14 August	R-01 filed + FM-01 returned; B1 data quality (B internal); A2 interview synthesis; A3 empathy & journey maps; B2 dashboard v1
4	17-21 August	R-02 and R-03 + FM-02/FM-03; B3 analysis summary; A4 strategic options (cite R/FM IDs); B4 evidence-check memo
5	24-28 August	A5 trade-off reflection; A6 validation; B5 funding scenarios; A7 revision log; executive summary draft
6	31 Aug-4 Sep	Final report draft for handoff; online handoff checklist confirmed
7	7-11 September	BOARD PRESENTATION Thu 10 Sep 09:00; all final deliverables Fri 11 Sep 17:00
8	14-18 September	Peer evaluation (Mon); reflection journal (Tue); lessons-learned; programme closes Sun 20 Sep

Track Analysis Requests on the Request Log tab. Minimum three completed R/FM pairs before final options.

6. How you will be assessed

A 100-point rubric applies. The table below is the expected scale for planning your effort. Facilitators may refine descriptors or band cut-offs; any change will be announced. Treat these weights as indicative, not a frozen contract.

Criterion	Points (expected)
Problem understanding	15
Research quality	10
Design thinking	15
Data analysis and translation	20
Recommendations	20
Presentation	10
Project management	5
Teamwork and cross-workflow exchange	5

Presentation Day also applies a panel split (Buddy / Core Team / Guest Board). See Facilitators/Presentation Day Plan for weights. Strong teams ask precise questions, translate findings honestly, and own the costs of their preferred recommendation.

7. Citation standard

Every claim must be trackable for markers. Do not cite a document code alone.

Source type	Required citation form	Example
Client document	Ref + section or page heading	D-02 1 Dong Nai; D-01 'Our year in numbers'
Interview transcript	Transcript code + speaker	BN-02 (Tuan); ST-05 (Minh)
Findings / requests	Request or Findings ID	R-02; FM-03
Dataset (B only, via memo)	Table + field + definition used	employment_outcomes.placed_90d (formal)

8. How to get the package and how to submit

Download from GitHub

1. Open the programme repository (link from your Buddy).
2. Click Code, then Download ZIP - one click downloads the full Participants pack (and Facilitators only if you are staff).
3. Or clone with git if your team prefers version control.

Shared workspace

Each team works in the Google Drive / Google Workspace folder created by the programme (or Microsoft 365 if your cohort is assigned that stack). Buddies and Core Team only review files in that folder and via the submission Form.

File naming (mandatory)

Use: TeamShortName_Owner_DeliverableCode_Version.ext

Example	Meaning
Tiger_All_Charter_v1.pdf	Whole-team Project Charter, version 1
Tiger_WSA_A1_IssueTree_v2.pdf	Workflow A deliverable A1
Tiger_WSB_FM03_Findings_v1.pdf	Findings Memo FM-03
Tiger_All_BoardDeck_vFinal.pptx	Final board deck

Submission channel

1. Upload the named file to your team Drive folder.
2. Submit the Drive link (or attach if under size limit) via the programme Google Form for that week - your Buddy will share the Form URL at kickoff.
3. Email is backup only if the Form is down; always CC your Buddy.

9. Ground rules

1. Fictional case only: do not treat GBF or named individuals as real; do not bring outside data, news or personal research into deliverables or inferences.
2. Use only the materials in this package.
3. Workflow A must not open or request the raw operational datasets. Route all quantitative needs through Analysis Requests to Workflow B.
4. Workflow B must not share the raw workbook with Workflow A. Share Findings Memos and curated charts only.
5. Cite every claim to the citation standard in Section 7.
6. State the definitions you use, especially for the placement rate.
7. Fill templates in Word using Nunito or Lexend (Vietnamese-safe). Present in PowerPoint with the same fonts. Export read-only finals as PDF.
8. Handoff confirmation is an online tick + typed name/date - no wet signature.
9. Your Buddy is a facilitator, not a consultant. They will not give you the answer or the data file.

10. Package contents

Folder	What is inside
0_Start_Here	This Programme Guideline; data room index
1_Client_Data_Room	GBF documents (D-01 to D-12) and interview transcripts (no datasets)
2_Workflow_A_Impact_Strategy	Workflow A brief, playbook, A templates
3_Workflow_B_Operations_and_Analytics	Workflow B brief, data dictionary, datasets, dashboard, B templates
4_Shared_Toolkit	Toolkit workbook (Request Log), guides, board deck, shared templates
