Facilitator reference for data inconsistencies and expected deliverables

Client	Generation Bridge Foundation
Document reference	GBF Case Key
Classification	ANSWER KEY - FACILITATOR ONLY
Version	2.0 July 2026

This folder is for facilitators, buddies and assessors only. Do not distribute to participants. It consolidates the case key: every built-in data inconsistency, document-level contradiction, and what strong deliverables should contain.

Files in this folder

File	Purpose
01_Data_Inconsistencies_Register.pdf	Every dataset and document inconsistency
02_Expected_Deliverables_and_Outcomes.pdf	What excellent work looks like per deliverable
03_Strategic_Solution_Paths.pdf	Defensible recommendation paths and red lines
Data_Inconsistencies_Register.xlsx	Searchable register for marking and debrief

How to use this pack

1. Before Week 1: read the data inconsistencies register so you know what teams should find.
2. During marking: use Expected Deliverables for criterion-level judgement.
3. In debrief: reveal that multiple solution paths were valid (see document 03).
4. Operational facilitation remains in Facilitators/ (buddy hints, rubric, debrief flow).
