Frequently asked questions

Can we collect more data or interview real NGO staff?

No. Everything required is in the pack. Managing incomplete information is part of the exercise; state your assumptions instead.

Which placement rate is correct?

Both are 'correct' under their definitions. The learning point is to state the definition and report honestly (D-01 footnote vs ST-02).

Is there a right recommendation?

No. Several paths are defensible (see Solution Paths). Judgement and evidence win.
