

Assessment Rubric

100 points - descriptors and point bands per level

Client	Generation Bridge Foundation
Document reference	Facilitator pack
Classification	FACILITATOR ONLY - do not distribute
Version	3.0 July 2026

Score each criterion against the descriptors. Point bands below make Excellent / Good / Satisfactory / Poor concrete. These bands are expected scales; Core Team may announce refinements without changing the criterion weights without notice.

How to convert a level to points

For a criterion worth P points: Excellent = 85-100% of P; Good = 70-84%; Satisfactory = 50-69%; Poor = 0-49%. Round to the nearest whole point.

Criterion max (P)	Excellent	Good	Satisfactory	Poor
15	13-15	11-12	8-10	0-7
20	17-20	14-16	10-13	0-9
10	9-10	7-8	5-6	0-4
5	5	4	3	0-2

Problem understanding (15 points)

Excellent	Good	Satisfactory	Poor
Precise, MECE issue tree; hypotheses imply clear asks for B	Solid framing; minor gaps	Generic framing; some overlap	Misreads the problem

Research quality (10 points)

Excellent	Good	Satisfactory	Poor
Sources triangulated; citations include section/speaker; contradictions resolved	Most sources used well	Uses sources uncritically or cites code only	Ignores or misuses sources

Design thinking (15 points)

Excellent	Good	Satisfactory	Poor
Evidence-based empathy and journey maps grounded in specific voices	Competent maps and ideation	Mechanical, thin on evidence	Superficial or missing

Data analysis and translation (20 points)

Excellent	Good	Satisfactory	Poor
Clean data; honest definitions; Findings Memos in plain language; limitations stated	Mostly sound; small errors	Basic analysis; weak translation to A	Errors, raw-file sharing, or misleading charts

Recommendations (20 points)

Excellent	Good	Satisfactory	Poor
-----------	------	--------------	------

Distinct options; Request IDs cited; costs of preferred path named	Reasonable, mostly supported	Vague or weakly supported	Unsupported or infeasible
--	------------------------------	---------------------------	---------------------------

Presentation (10 points)

Excellent	Good	Satisfactory	Poor
Answer-first storyline; every slide earns its place	Clear and mostly disciplined	Some data-dumping	Disorganised or decorative

Project management (5 points)

Excellent	Good	Satisfactory	Poor
Request Log, RACI, file naming, version control all maintained	Mostly maintained	Patchy	Absent

Teamwork and cross-workflow exchange (5 points)

Excellent	Good	Satisfactory	Poor
Genuine request/findings exchange; online handoff confirmed in good faith	Good collaboration	Uneven contribution or one-way dump	Free-riding or A/B bypass

Sample answers

There is no single model answer. Use Answer_Key/ for expected findings, solution paths, and deliverable standards. Reward reasoning that names costs, not a particular destination.
