

Debrief Guide & FAQ

Run a 90-minute debrief; answer common questions

Client	Generation Bridge Foundation
Document reference	Facilitator pack
Classification	FACILITATOR ONLY - do not distribute
Version	3.0 July 2026

Working space and submission (tell teams at kickoff)

- Shared workspace: Google Drive / Google Workspace folder per team (or Microsoft 365 if the cohort is assigned that stack).
- Submission: upload named file to Drive, then submit the link via the weekly Google Form (Buddy shares URL). Email is backup only.
- File naming: TeamShortName_Owner_DeliverableCode_Version.ext
- Package download: GitHub repo -> Code -> Download ZIP.

Debrief flow (90 minutes)

1. Team reflection (15 min): what surprised you?
2. Evidence round (20 min): each team names the finding that changed their mind (ideally via a Findings Memo, not a slide of pivots).
3. Trade-off round (20 min): what did your recommendation cost, and for whom? (Only then may facilitators name efficiency versus ethics if it still has not surfaced.)
4. Reveal (20 min): show the multiple valid paths; there was no single answer.
5. Skills forward (15 min): one thing each person will practise next.

Frequently asked questions

Can Workflow A have the Excel file?

No. Asking what to request is part of the exercise. Buddies must not share it.

Can we collect more data or interview real NGO staff?

No. GBF and all named parties are fictional for this Impact Case. Everything required is in the pack. Managing incomplete information is part of the exercise.

How do we confirm the handoff online?

Tick the checklist boxes, type full name and date. A Drive comment or sheet tick is enough - no wet signature.

Which placement rate is correct?

Both are 'correct' under their definitions. The learning point is to state the definition and report honestly (D-01 footnote vs ST-02).

Is there a right recommendation?

No. Several paths are defensible (see Solution Paths). Judgement and evidence win.
