

Facilitator Guide

How to run the six-week Momentum engagement

Client	Generation Bridge Foundation
Document reference	Facilitator pack
Classification	FACILITATOR ONLY - do not distribute
Version	2.0 July 2026

Before you start

Distribute only the Participants/ folder. Never share the Facilitators/ folder. Confirm each team has five or six members and assign one Buddy per team.

Kickoff (Day 1) - what to say

Set the tone in the first ten minutes:

- You are consultants, not students. The Board is paying for judgement.
- There is no single right answer. We assess your reasoning and evidence.
- Everything you need is in the pack. Do not go looking outside it.
- The two workstreams must audit each other. That tension is deliberate.

Week-by-week facilitation

Week	Watch for	Nudge if...
1	Vague problem statements; skipping the credibility check	they treat every source as equally reliable
2	Data cleaning done silently; empathy maps with no citations	they delete outliers without recording why
3	Options that are not genuinely distinct	all three options are really the same idea
4	Recommendations that ignore validation	nothing changed after they read the transcripts
5	Data-dump slides; burying bad news	Dong Nai or the 63% formal rate is missing
6	Shallow reflection; blame in peer review	the debrief avoids the ethical trade-offs

Escalation triggers

- Team conflict unresolved for more than 48 hours.
- Any safeguarding or ethical red flag in how a team behaves.
- A Buddy giving answers rather than asking questions.
