Datasets

All eight tables are in a single Excel workbook, GBF_Datasets.xlsx, one tab per table, with a data dictionary on the first tab. The data is a real export from GBF's monitoring system and contains genuine quality problems that you are expected to find and handle.

Table	Rows (approx.)	Purpose
beneficiary_registry	520	Master list of young people served
employment_outcomes	460	Employment status 90 days after completion
programme_attendance	3,700	Session-level attendance
survey_outcomes_2025	350	End-of-programme satisfaction survey
volunteer_hours	1,050	Mentor hours logged
hub_costs_2025	36	Monthly operating costs by hub
funding_by_source	48	Quarterly income by funder
geographic_waitlist	24	Waitlist by district

A note on scale: the export covers the 2024-2025 cohorts and is smaller than the 2,847 figure quoted in the Annual Report. Treat it as a representative sample and be explicit about that limitation in your analysis.
